PROFESSIONAL SUMMARY

Aspiring Machine Learning Engineer and Data Scientist pursuing M.Sc. in Artificial Intelligence & Data Science at GJUST, with strong skills in machine learning, data analysis, and intelligent system development. Experienced in building end-to-end AI solutions using Python, applying machine learning, SQL, and predictive modeling techniques to solve real-world problems. Passionate about creating scalable, data-driven applications with a strong foundation in data analytics and ML practice.

TECHNICAL SKILLS

Programming Languages : Python, SQL, R

Data Analysis & Visualization: Pandas, NumPY, Matplotlib

Machine Learning : Scikit-learn, Supervised and unsupervised learning, Feature Engineering, Model Evaluation

Tools & Platforms: MS Excel, Git, GitHub, Jupyter Notebook, VS Code, PowerBI, PostgreSQL, Cloud

Core Concepts : AI Essentials, Data Preprocessing, EDA, Statistics and Probability, Data visualization, Cross-Validation, Statistical Modelling, Dashboard Development

INTERNSHIP

Data Analytics Intern | Management Systems Company (Current)

Project: Smart Inventory Analytics & Store Performance Dashboard

- Developed an interactive inventory and store performance dashboard in Microsoft Excel to monitor stock levels, sales, trends, inventory turnover, and store-wise performance.
- Performed data cleaning transformation and analysis to improve reporting accuracy and business visibility.

SKILLS: Python, Pandas, NumPy, Excel, SAP API Integration, Data Analytics, Dashboard Development, Data Visualization

PROJECTS

1. Smart Inventory Analysis & Store performance Dashboard | MS Excel, Python, Pandas, NumPY, Matplotlib

Developed an interactive dashboard in Microsoft Excel to analyze inventory and store performance data. The dashboard enabled real-time business insights and supported inventory planning and data-driven decision-making.

2. AI based Radar Detection System | Python, Scikit-learn, Pandas, NumPy, supervised Machine Learning

Developed a supervised machine learning solution using Python, Pandas, NumPy, and Scikit-learn to classify radar signals through data preprocessing, feature engineering, model training, and performance evaluation.

EDUCATION

Guru Jambheshwar University of Science & Technology (GJUST)

M.Sc. Artificial Intelligence & Data Science (NEP-2020)

Hisar, Haryana

2025-2027

Bachelor of science (Hons.) Mathematics

Aggregate: 81%

2024

CERTIFICATION AND LEARNING

- Google AI essentials specialist course - [Coursera](#)
- Python course from scalar school of technology
- SQL Using AI Workshop
- Linux & Cloud Workshop

ACHIEVMENTS

- Secured **100/100** in **Statistics & Probability** during M.Sc. (AI & Data Science).
- Ranked among the **Top 10 performers** in university semester examinations during B.Sc. Mathematics.
